PILOT PACK · FOR GUIDANCE COUNSELLORS AND TY COORDINATORS

A careers class for your whole group. *Talking points for every one-to-one.*

Compass is an AI career guide for Irish secondary schools. Each student has a 15-20 minute conversation about what they enjoy and what matters to them, and gets a career map with reasons and real routes in Ireland. You get a live class page that prepares you for every meeting.

STUDENT DATA, IN PLAIN ENGLISH

No accounts, no emails
Students never sign up, log in or give an email address.

Initials or a first name
Students add these so you know whose map is whose.

Conversations aren't kept
Only the career map is saved to your class.

Clear retention
Class maps last as long as the class, up to one school year. Delete a class any time.

Where data goes
Conversations are processed by our AI provider, Anthropic, in the US under Standard Contractual Clauses, and aren't used to train its models.

Safeguarding
Support numbers are always on screen. You see how many students were shown support, never what they wrote.

> *"Getting to type out my own responses... made it feel like I had far more freedom to give context into my own life."*

◈ Compass

TEACHER RUN SHEET

A 40-minute lesson.

Students work on their own and at their own pace, on a phone, laptop or school computer, so you are free to move around the room.

Before	**Set up and check** Create a free teacher account at compass-vert-two.vercel.app/schools/start and create your class. You can try it straight away with up to five students while we check your account. On the school network, open your class page and press "Check Compass is working".
0-5 min	**Introduce it** Press "Show on the board" for the QR code and read the short intro below. Ask students to add their initials or first name when they start.
5-30 min	**Students talk to Compass** Most finish in 15-20 minutes. Your Live tab shows who is answering and who may need a hand. Early finishers open the career guide for their top match.
30-37 min	**Pair share** In pairs: your top match, why Compass suggested it, and one thing that surprised you.
37-40 min	**Wrap up** Check that everyone's map has arrived on your class page. Print exit slips from the Students tab if you'd like something on paper.

READ ALOUD

"This is a conversation, not a test. Answer like you're talking to a friend. If you're stuck, just say 'I don't know' and it'll help. Add your initials at the start so I know which map is yours. It's an AI, so it can get things wrong, and we'll talk through your map together later."

AFTERWARDS

- ✓ **Follow up** shows who to see first: students Compass had less to go on with, and anyone who asked you to check in
- ✓ Open a student for talking points before each one-to-one, then tick **Met** and keep a private note
- ✓ **Groups** suggests what to organise next: open days, speakers, work experience

IF A STUDENT IS SHOWN SUPPORT

Compass pauses the careers conversation and shows Childline, Pieta, 50808, Samaritans and 112/999. The student can sign their initials so you can check in. They are told that teachers are mandated persons. Please follow your school's Child Safeguarding Statement and involve your Designated Liaison Person where needed.

Compass supports guidance counselling; it doesn't replace it. Career maps and guides are written by AI and can be wrong. Pay figures are estimates. Check course details on the official course page.
